To Whom It May Concern:

Salim J Radi is a highly competent accountant who worked in my CPA firm from November 6, 2017 to June 29, 2018. Salim performed any task asked of him and brought great value to my organization. During his time at the firm, he completed around 250 1040s, 20 1120Ss, 3 1120Hs, 5 1065s, and 5 1041s.

He also managed the financial reporting/bookkeeping for seven organizations, performed compilations, followed up with clients for information, performed tax research, and manage daily office operating activities.

I can confidently recommend Sal and assure you that he would be a great addition to your organization should you decide to work with him.

Sincerely,

David Berns, CPA
